

We're moving together to CAIR2

**Bigger Better Faster**

Dear CAIR2 Data Exchange Submitter,

CAIR2 will begin onboarding Sites to [bi-directional data exchange \(BiDX\)](#) in the Summer of 2017. To register your Site's interest and/or readiness for BiDX, please have an authorized representative of your Site complete the [CAIR2 Bi-directional Data Exchange Interest/ Readiness Survey](#). Before completing the survey, make sure you have consulted with your EHR or Sending Facility vendor since the survey contains questions about the BiDX readiness of your EHR system. You are also welcome to authorize your EHR vendor to complete the survey on behalf of your Site.

**Note: completing the survey is a mandatory step if your Site or Sending Facility wishes to be considered for onboarding to BiDX with CAIR2.**

Thanks,  
The CAIR2 DX Team
