Bigger Better Faster

To: CAIR Users in the LA and Orange Regions

The California Immunization Registry (CAIR) is in the process of being updated to a **bigger, better, and faster** immunization information system: CAIR2. It's time for you to get ready. Start by reviewing the "[Get Ready to Move to CAIR2 Checklist](#)" and visiting the [CAIR2 webpage](#) to find out more about CAIR2.

Power and Regular Users:

To help prepare for transitioning to CAIR2, [training](#) will be required for [Power and Regular CAIR Users](#) before the launch. The training will orient you to the new software so that you are ready to begin using it when your region switches over. [Register now!](#) Only Power and Regular users who have actively used CAIR within the 6 months before December 28 will be able to register for training before the switchover to CAIR2. Training will be available for inactive and new users after the launch.

Read-only Users:

Formal training will not be available for [Read-only users](#). Instead, refer to instructional [videos and guides](#) before the launch.
