

We're moving together to CAIR2

Bigger Better Faster

Dear CAIR user,

It has been brought to our attention that some crucial information may not be displayed correctly on older versions of Firefox. If you are currently using Firefox as your web browser to access CAIR2, please update to the latest version (version 54.0.1) to ensure all CAIR data is displayed correctly.

How to learn which version you are using:

1. Select "Help" and "About Firefox" from your menu.
2. If there is a button that reads "Restart Firefox to Update", you are not running the latest version and should update.

3. If your browser is up-to-date, you will see the message "Firefox is up to date." The latest version of Firefox is 54.0.1.

Regardless of which browser you use, you should run the latest version to ensure CAIR works properly. If you need further assistance or have any questions, contact the CAIR help desk at 1-800-578-7889 or by email at CAIRHelpDesk@cdph.ca.gov.

Please do not reply to this message. This email account is not checked. For the latest information about CAIR2, visit www.cairweb.org/cair-2-project/.
