

**Subject: Get Your Inventory Ready for CAIR2**

**To: All CAIR Power users in Phase 3 and DX Sites (send on March 9)**

We're moving together to **CAIR2**

**Bigger Better Faster**

Dear CAIR Power users in Phase 3,

**Get your inventory ready for CAIR2!**

Current inventory will move to CAIR2. But, no transaction history for any lots will be available when CAIR2 goes live on Monday, March 20, in the LA-Orange region.

- Archive all expired or empty vaccine lots in your Current Inventory. Vaccine lots that are empty, expired, or entered more than 2 years ago will not be moved to CAIR2. Refer to the [Inventory Guide](#) for instructions.
- Save or print all reports from CAIR1 before CAIR1 shuts down on, March 17, 2017 at 6 pm. These past transactions will not show up in CAIR2.

You'll need the reports to check that your inventory was properly transferred to CAIR2 and for ordering vaccine or documentation (e.g., Doses Administered, Vaccine Usage, Inventory Transactions, State-supplied Vaccine, Dose-based Eligibility).

**Data Exchange Sites:**

If you submit doses through data exchange (DX), your submitted doses can decrement from your CAIR2 inventory but you will need to [take several steps to make this happen](#).

For the latest information about CAIR2, visit [www.cairweb.org/cair-2-project/](http://www.cairweb.org/cair-2-project/).
