MICHELLE CHANCE. OFFICE ASSISTANT

Michelle Chance is the office assistant at a pediatrician’s office in Yuba City. Michelle says that one of her favorite parts of the registry program is the immunization inventory. “It’s easier for me to see what lot numbers are going to expire,” she explains. And this keeps their inventory loss costs low.

Michelle also finds the registry helpful in tracking “kids who are behind on their shots.” As she puts it, “It’s easy for me to run reports and to send out reminders that they are due for their vaccinations and physicals.” She also likes the report and card printing features of the registry program.

According to Michelle, the bottom line is that that “[the registry] makes it easier to print records for the office and families.”
